DETAILED ACTION

Claim Objections

Claim 8 is objected to because of the following informalities: the claim depends from claim 7, which has been canceled. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-6, 8-15 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Eng in view of Boughton of record for reasons of record.

Claims 16-17 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Eng in view of Boughton as applied to claims above, and further in view of Narayanan of record for reasons of record.

Response to Arguments

Applicant's arguments filed 8/7/06 have been fully considered but they are not persuasive.

Contrary to applicant's argument that the Boughton patent does not disclose the removal of sulfuric acid from the hydrogen peroxide only the separation of

metal from the peroxide, the Boughton patent does disclose that the separation of hydrogen peroxide from sulfuric acid. The Example 1 shows the separation of hydrogen peroxide from sulfate ions (see table B in col. 7). At the pH of the feed, the sulfate ions would be sulfuric acid (see col. 6, lines 7-10). Accordingly, the reference does disclose the removal of sulfuric acid from hydrogen peroxide to produce pure peroxide.

An express suggestion for modifying or combining the references relied upon need not be contained in any of the individual references because the proper question to be asked (and answered) is what do the references collectively suggest to one of ordinary skill in the art? In re Lindell, 155 U.S.P.Q. 21; In re Rinehart, 189 U.S.P.Q. 143; In re Baranakas, 158 U.S.P.Q. 24; In re Lamberti et al, 192 U.S.P.Q. 78; In re Luck et al, 177 U.S.P.Q. 523; In re Keller et al 208 U.S.P.Q. 871.

Therefore, the claims stand rejected of record for reasons of record and further for reasons stated above.

Conclusion

This is a RCE of applicant's earlier Application No. 10/602,742. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if

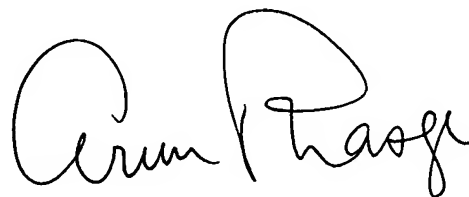

they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
